Thanks for the return. I will get in touch with him directly

Scary time but I feel that this is the time to get rid of the Hamas weapons and hopefully get a new group in charge that cares more about peace and happiness for their people than the present and past leaders

We love the fact that you are still a part of our family although distant and look forward to your visiting the US with your children and we visiting with you when we are in Israel

Stay safe and Be well Love

a bombing, even though Hamas, continuing to press for human shields, told them not to move. Hopeful, but we shall see.

Seems to me that if there is not a substantial reduction or better still a complete withdrawal of the major weapons held in Gaza this will not be successful and likely just a “holding” of the status quo which in the long run is not good

All that being said we send our love and hope you and the kids will visit us soon.

In the small world dept. Izzy Rosenzweig, a former Israeli and a partner of mine for many years bumped into your Dad on a plane to or from Israel and they chatted with dad saying some nice things about our family. Tell him I say Hi

I have been asked to contact Dad re speaking in the US for a fund raiser for Shalva, a great organization in Israel dealing with kids with severe physical issues.

Would you please send me his current email address so I can contact him directly. I do not want him to fell that I am working thru you and our friendship

We were so happy to see you happy and with a nice man that you love and who loves and respects you, and we look forward to seeing you in the Spring when we usually visit Israel or hopefully here when you visit with the family

Helaine sends her love s do I

Be well
